

## \*\*\* NEW 2-Wire Kits with Integrated Picture Memory \*\*\*

The new 2-Wire Kit has improved on the first generation kit whilst maintaining the ethos of simplicity of installation, obtained through the minimal number of wires and power supplies required. Only 2-wires are required for the entire system and 1 no. combined power supply and central unit can operate multiple monitors and front door stations.

Features include;

- 7" LCD touch screen monitor very similar to an iPad for ease of use
- Integrated picture memory functionality within each monitor
- The possibility to install a greater number of monitors within a single premise
- Built-in access control keypad with multiple code capacity
- Day and Night Ring Volume Settings as well as the ability to select 12 different ring tones
- Door Release via the internal power supply (12V, 250mA) or external power supply

The 2-Wire Kit (FVN-6020) includes;

- 1 x IP54 Stainless Steel Keypad Front Door Station
- 1 x 7" Colour LCD Touch Screen Monitor with Integrated Picture Memory
- 1 x Combined Power Supply and Central Unit

*Additional door stations and monitors can be added to the system if required*
